

	PC	PS3	PS2/xBOX/DVD player (standalone)
PC HD-DVD ! : <i>Deprecated technology</i>	<i>HDD transfers</i> Download it & mount iso The good : HD The bad : not legit		
Blu-ray		<i>Blu-ray HD Java</i> The good : HD The bad : bugs / Java interface	
DVD	<i>DVD-rom</i> The bad : Vista compatibility Not Direct Show enabled (MCI) Needs commercial software (DVD player)		<i>DVD-Video</i> The good : Ease of use The bad : not HD
Daphne (v1)	<i>Laserdiscs rips</i> The good : Ease of use Access to all settings The bad : Tricky to insert custom rips Seeking errors (jumps)		

Deleauvive (c 2009):

- This chart was made in the distant forges of netcomet.info
- netcomet.info is not affiliated with Digital Leisure inc., which sells those great LD games
- Some of this info was taken from the Daphne forum, which remains the best emulator for LD games
- You're encouraged to buy at least the games you like most to support the developers

Have phun !
